'16 FALL ELECTRONICS RECYCLING EVENT

recovers valuable materials from old electronics that can be used to make new products. As a result, we save energy, reduce pollution, reduce greenhouse gas emissions, and save resources by extracting fewer raw materials from the earth.
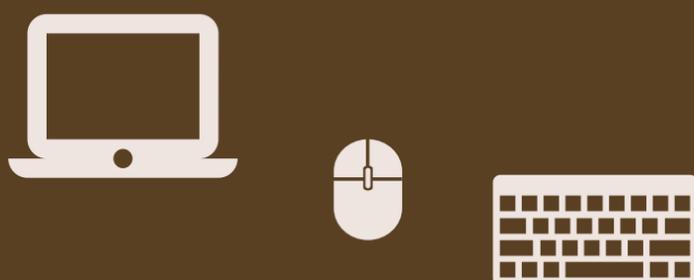

7,715 pounds of old CRT TV's were shipped out this fall for recycling

Cathode Ray Tube (CRT) TV's and computer monitors can contain toxic levels of lead, mercury, cadmium & Krypton 85 that would end up in our landfill if not recycled

100%

ECS Refining recycles 100% of electronics materials at their national state-of-the art processing facilities
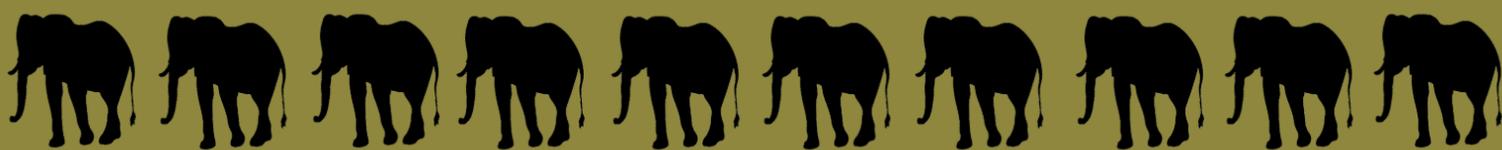

Almost 99% of the components that make up a PC can be recycled

A total of 9 volunteers & 2 employees contributed 99 hours to unloading, stacking, and loading electronics during the event

245,687

Since the 1st event in 2010, Keep Alpine Beautiful has recycled 245,687 pounds of electronics

Keep Alpine Beautiful recycled 10 tons of E-Waste this fall

Recycling just one cell phone saves enough energy to power a laptop for 44 hours
