### **TCEQ- NOTICE OF VIOLATION: CHLORINE MONITORING**

The City of Alpine water system PWS ID: 0220001 has violated the monitoring/reporting requirements set by the Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public water systems are required to properly disinfect water before distribution, maintain acceptable disinfection residuals within the distribution system, monitor the disinfection residual at various locations throughout the distribution system, and report the results of that monitoring to the TCEQ on a quarterly basis.

Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination.

This violation occurred in the monitoring period of the fourth quarter of 2023 (October 1, 2023 –December 31, 2023).

We are taking the following actions to address this issue:

- The required quarterly report was immediately uploaded and submitted to TCEQ when we were notified of the missed report deadline.
- The new employee has received additional training on required reporting deadlines to prevent a future recurrence.
- ALL required samples, and lab tests were performed according to TAC 30 and at NO TIME did a lapse in disinfection or monitoring occur - The City of Alpine continues to produce clean, safe, drinking water for all its customers.

If you have questions regarding this matter, you may contact Johnny Marquez at 432-837-3281, ext. 6.
